

2019 CSU Extension Internship Program

About

CSU extension in partnership with Colleges across the University provides an annual internship program. Locations vary across the state, and combine research, program delivery and dissemination efforts with hands on learning at the local/county level. Interns glean an understanding of the complexities of working across state, county and university constructs and how to marry varying perspectives toward a common goal in addition to specific internship goals.

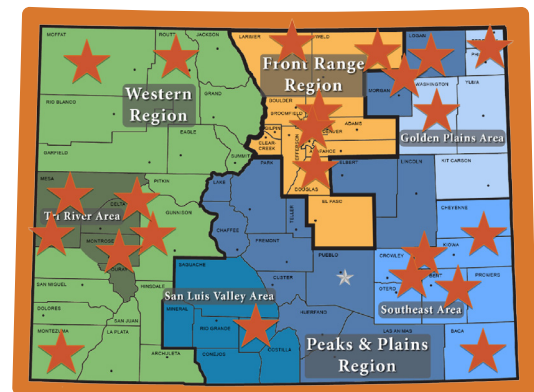

2nd year of program re-launch

24 paid internships awarded in 6 colleges

- College of Agricultural Sciences
- College of Health and Human Sciences
- College of Liberal Arts
- College of Veterinary Medicine and Biomedical Sciences

Feedback From Student's Experience

Daena Rowlison

College of Veterinary Medicine and Biomedical Sciences

"I loved this internship and learned a ton from it. Very grateful for the incredible support I received from mentors."

Connor Henderson

Walter Scott, JR. College Of Engineering

"I really enjoyed seeing the positive impact that my research made on the community."

Haley Dallas

Warner College of Natural Resources

"Getting to be in such a vibrant and supportive Extension Office-- I have a much better understanding of everything CSU Extension does and what a future career in Extension would look like. It has also given me the opportunity to publish which is extremely valuable as an undergrad."

Jennifer Friend

College of Agricultural Sciences

"My most memorable experience from the internship was working with several county agents during county fair season and learning how different agents handle that week."

Elena Dosamantes

Warner College of Natural Resources

"My most memorable experience was being able to work closely with a professor/researcher/expert"
